

## Model: HF-4W0-5K230: 4 Way 2-30MHz 5KW 0-degree Combiner.

---

### Specifications

- **2-30MHz**
- **up to 4000 watts reflected power at maximum rated forward power.**
- **Default Configuration is 4 type n inputs and 7/16 DIN at the sum port.**
- **Default coating is 6061 T6 uncoated. plating is available at additional cost.**
- **5000W forward power**
- **Input/output 50 ohms**
- **Phase unbalance +/- 5 degrees**
- **Input port isolation in 50 ohms system -23dB maximum.**
- **Amplitude unbalance +/- 0.1dB**
- **Insertion loss 0.25dB maximum**
- **VSWR 1.2 max per port.**

This 4-way combiner is ideal for industrial, scientific and military applications where poor output VSWR is a normal working condition. This item is designed for indoor use only. Dimension (L x W x H inch) [13.0" x 11.0" x 3.0"]
